

DEFENSIVE HUDDLE

A. FORMATION

1. Front Row (LE, LT, RT, RE)

- Tackle - set huddle two yards from ball.
- Feet shoulder width apart and parallel.
- Hands on knees, eyes on signal caller.
- Back will be to line of scrimmage.

2. Second Row (Sam, Will)

- Sam and Will form the end of the huddle, facing each other.
- Mac or Mike - step in huddle and call the signal.

3. Back Row (LC, SS, FS, RC)

- Backs will line up opposite the Ends and Tackles, facing the offensive team.
- Feet shoulder width apart and parallel.
- Hands on knees, eyes on signal caller.

B. PROCEDURE

- Designated OLB - once huddle has been set, you call out down and distance.
- Signal Caller - Mike and Safety will get signal from sideline. Signal caller will then call defense twice (i.e. Bear 3 Sam, Bear 3 Sam).
- Once defense has been called signal caller will call "READY - BREAK". All players will yell "BREAK", clap hands and break the huddle.
- Designated Safety - Once huddle has been broken you will call out personnel in game (i.e. Pro. Ace, Kings, etc).
- All players be ready to play when Center touches the ball.
- Signal caller, designated OLB, and designated Safety will be only players talking in huddle unless a time out has been called.
- Always be alert for a quick huddle or no huddle by the offensive team.

C. CALLING STRENGTH

- Once formation is deployed signal caller calls out strength of formation and set of backs and designated safety repeats the call.
- Any change of strength motion is called by designated safety and repeated by other safety.

NAMES OF OFFENSIVE POSITIONS

F or J	:	Fullback
H or 2	:	Halfback
M	:	3rd Tight End in game or Move Man

IDENTIFYING AND CALLING FORMATIONS

In calling formations we will have standard sets that teams use most of the time according to the personnel they have in the game. If they align in that set, we just call the personnel and the strength. Example: Kings Left, Queens Left.

If it is any other formation other than standard sets, we must identify where the difference lies. We have a priority order in identifying the differences.

- I. **PERSONNEL IN GAME** - Ace, Kings, Queens, Jacks, Tens or Flush.
We assume it is regular personnel, if we don't, identify something else.
- II. **SPREAD**
Identify spread second.
- III. **DISTRIBUTION OF RECEIVERS** - Twin, Trips, Orange, Deuce, Trey, Power
If distribution is not standard set for personnel in game, identify next.
- IV. **BACKFIELD SET** - Red, Brown, Blue, I, Opposite, Orange, Near, Far, T, and Power.
If backfield set is different than standard set for personnel in game, identify next.
- V. **RECEIVER ALIGNMENT STRONG SIDE** - Flop, Flip, Speed, Heavy, Big Wing
If strong side receivers are different than standard set for personnel in game, identify next.
- VI. **FORMATION STRENGTH** - left or right
Identify strength of formation next.
- VII. **ALIGNMENT OF INSIDE RECEIVER STRONG** - Off, Close, Crack, Wide
If first inside receiver on strong side is different than standard set for personnel in game, identify next.
- VIII. **ALIGNMENT OF INSIDE RECEIVER WEAK** - Off, Tight, Close, Crack, Wide
If first inside receiver on weak side is different than standard set for personnel in game, identify next.
- IX. **RECEIVER IN BACKFIELD** - W, Y, X, Z
If receiver aligned in backfield identify by position and location if different than behind QB.
- X. **MOTION** - Identify any motion.

OVERUNDERSWIMSINK

KEY 1 MIKE: If Key 1 Mike is called in huddle, Mike will call one of the above alignments - based on Formation. We will then execute appropriate Mike Rush from that alignment.

On our Bear "Y" Blitz we will always Blitz our Two OLBer's and the Inside Linebacker that is aligned to the Split End side. Sometimes it will be the Mac Backer and other times it will be the Buck Backer. The Nose will Blitz the "1" Gap to the side of "X" and the End on the side of "X" will run a Loop with the Nose.

The ILB that is rushing will always Blitz the 1 Gap to the SE side. If there are two TE's or no TE in game, the ILB will Blitz the 1 Gap to the Weak side. We will align and adjust to motion exactly like we do on Bear 1 Dog Switch.

Cover #1 with "0" Technique.

Cover your man with "10" Technique.

"0" Cover your man; if he blocks, Pressure Rush.

Contain Rush. If Receiver blocks on you, take him to QB.

A. Two Back Set & aligned to X: Cover first Back to your side or second Back away. Pressure Rush if your man blocks.

B. One Back Set, or Two Back Set if aligned to Y: Blitz 1 Gap to Split End Side.

One Back Set, or Two Back Set & aligned to X: Cover your man with "0" Technique. Pressure Rush if he blocks.

Contain Rush. If Receiver blocks you, take him to QB.

Cover First Back out to SE side or Second Back away. If Two TE's or no TE, Cover #2 Weak. (On all One Back Sets- cover the Back)

Run Loop with Nose.

Blitz 1 Gap to "X" Side.

Blitz "3" Gap.

BEAR "X" BLITZ COVER "0"

On our Bear "X" Blitz we will always Blitz our two OLB's and the defender that is aligned over "X". Sometimes it will be the Strong Safety and other times it will be the Mac Backer. The Nose will Blitz the "1" Gap to the side of "X", and the End on the side of "X" will run a Loop with the Nose.

We will align & adjust to motion exactly like we do on Bear 1 Dog Switch. If two Tight Ends or no Tight Ends in game, we will run Blitz from Strong Side.

Strong Corner	Cover #1 with "0" Technique.
Weak Corner	Cover your man with "0" Technique.
Strong Safety	A. If aligned on "X" - Blitz 5 Gap. B. If aligned away from "X" - "0" cover your man. C. If no TE, or TE is Split out - Blitz outside & Contain.
Sam	Contain Rush. If Blitzing Safety or Mac is aligned outside of you, go inside Back's block.
Buck	"0" Cover your man. Pressure Rush if he blocks.
Mac	A. If aligned on "X" - Blitz 5 Gap. B. If aligned on "X" and "X" is Split - Contain Rush. C. If aligned away from "X" - "0" cover your man & Pressure Rush if he blocks.
Will	Contain Rush - if Blitzing Safety or Mac aligned outside of you, go inside Back's block.
Free Safety	"0" Cover "X". If no TE - "0" cover #2 Strong.
End to X	Run Loop with Nose.
Nose	Blitz 1 Gap to "X" Side.
End away from X	Blitz "3" Gap.

PRO DOG COVER 10

"Backer"
"Air Banjo"

"Backer"
"Air Banjo"

Our Pro Dog Cover 10 defense is a blitz involving the Line, Sam and Will. Once formation is set it becomes a stay defense and the blitz will not change regardless of motion. We will use Cover "1" alignment rules but will run with all motion. Free Safety and Mike must communicate on motion involving their men.

Strong Corner
Weak Corner

Cover #1 strong with "O" technique.

1. If aligned weak - cover #1 weak using "O" technique.
2. If aligned strong - cover #2 strong using "O" technique.

Strong Safety

Contain Rush - Backer Force on run. If Banjo called - Air Force
2 Back Set - Fullback.
1 Back Set - Remaining Back.

Will

Contain Rush - Backer Force on Run. If Banjo call - Air Force.

Free Safety

2 Back Set - cover HB weak. 1 Back Set - Cover #3 strong or #2 weak.

Strong End

3 Gap Charge

Strong Tackle

Execute strong Loop technique.

Weak Tackle

Execute strong Loop technique.

Weak End

* Possible Banjo between Strong Safety and Free Safety.

** We will also have Over, Under, Swim, or Sink Dog with Rush lanes being determined by Game Plan. Coverage will stay the same.

PRO SNAKE COVER "O"

Our Pro Snake is a Blitz that will involve the Line, Strong Safety, and OLB on Strong Safety's side. Strong Safety must make Rex or Liz call which indicates side of Blitz. If Regular or Ace personnel are in game, we will flip-flop our Corners to "W" and "Y" as in Cover "1". If both Corners are aligned on one side, Strong Safety must align on opposite side and Blitz from that side.

If Kings, Queens or Flush personnel in game, Corners will align left and right, and Strong Safety will align on #2 strong and we will Blitz from that side. Once Formation is set, it becomes a stay defense and we will Blitz from that side regardless of any change of strength motion. The Defensive Backs will run with their man and LB's will bump motion across and pick it up on other side.

SINK DOG 10

KEY DOG 10: If Key Dog 10 is called in huddle, Mike will call one of the above alignments based on formation. We will then execute appropriate Dog Blitz from that alignment.

PRO FOX COVER "O"

- Widest Rusher Cover #4 Strong or #3 Weak on Swing. (DE's)

Our Pro Fox is a Blitz that involves the Line, Mike, and the Free Safety. We will use normal "1" alignment rules. Once strength is set it becomes a stay defense. Change of strength motion will not change the Blitz. Secondary will run with all motion and Linebackers will bump it across. The OLB's will pressure rush their man.

Mike	Blitz Strong #1 Gap.
Free Safety	Blitz Weak #1 Gap. If Center blocks you, absorb block and drop to hole.

On our Goal Line Bash defense we will play straight Frank coverage if we are not involved in a blitz. The purpose of our Goal Line Bash defense is to get hard outside force and still be solid inside. The line will play base goal line and Buck and Mac will mirror the Backs. The man who is the widest uncovered defender to his side is the one who Bashes. Sam and Willie will normally be involved in coverage.

NICKEL 51
KINGS TRIPS SPEED LEFT

On Nickel 51, 52, and 54 defenses we will align our Corners left and right with one exception; on a Kings Trips speed formation the Weak Corner will align on #3 strong. The Nickel Back will align in a two deep look on the weak side and the Weak Safety will align in a two deep look on the strong side. The Strong Safety will align on number two strong.

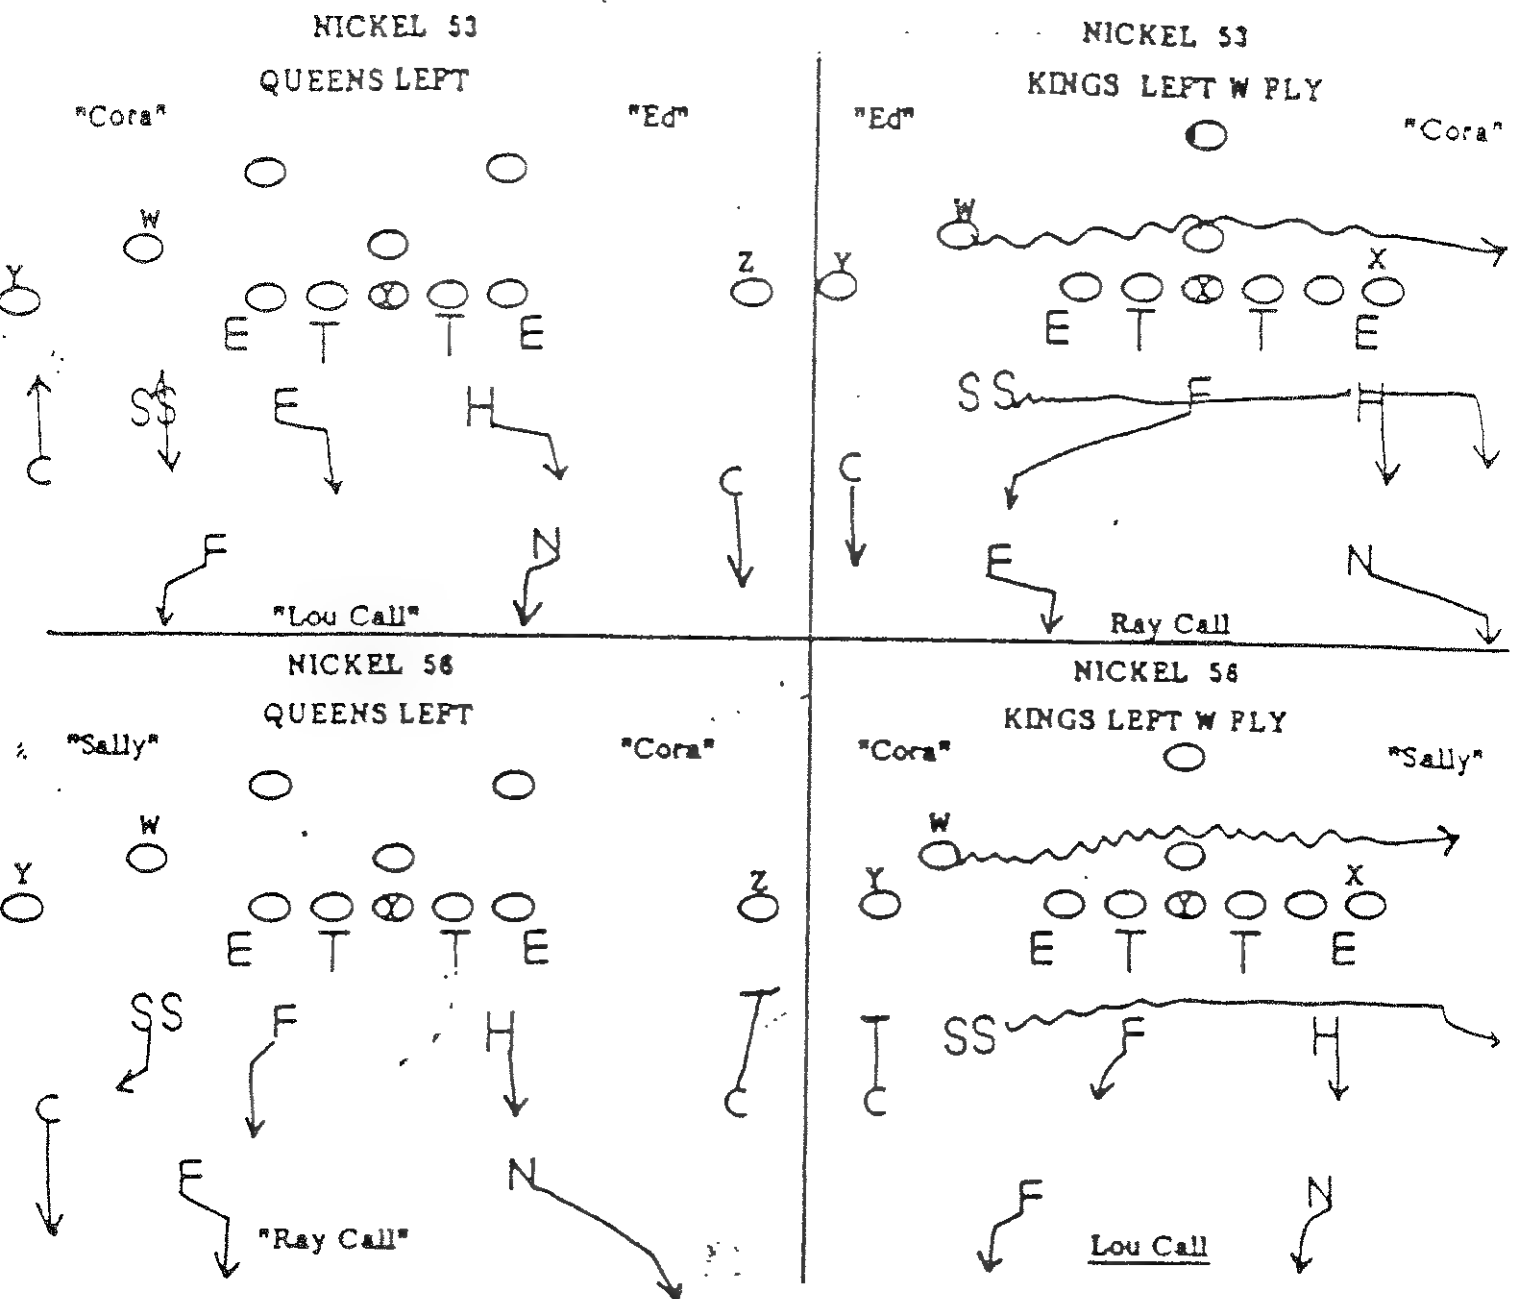

- | | | |
|----------------------|----------------------|--|
| H Backer will align: | A. Two Back Set | - opposite the H-Back. |
| | B. Twin Set | - on number two weak - off the line. |
| | C. Trip Set | - On number three strong - off the line. |

| F Backer will align: | A. Two Back Set | - Opposite the F-Back. |
| | B. Twin Set | - Align opposite Back. |
| | C. Trip Set | - Align opposite Back. |

Once aligned, if your man goes in motion, run with him to the next defender and either bump it or run with him according to who the next defender is and the personnel in game. The determining factor is we want to get the best personnel matchup possible. Normally we will bump "in" or "out" motion and run across with motion to other side and bump it out if Tight End on that side.

3. Bump rules may apply.

On Nickel 3 Deep Zone coverages, we will align our Corners left and right. The Nickel Back will align in a two deep look on the weak side and the Weak Safety will align in a two deep look on the strong side. The Strong Safety and the F-Backer will align on strong side and the H-Backer will align on weak side. All "in" or "out" motion will be bumped to the next man. Any change of strength motion, the Strong Safety will run across the formation to the new strong side. If it is a strong or weak zone, we must make an appropriate call in secondary designating the new strength. The Corners will always stay left and right. The H and F-Backer will slide with motion and if motion changes strength, they must make opposite drops according to strength and defense called.

Our Bear 9 Will is a Balanced Three Deep Zone Defense with the Will Backer rushing on all Formations. The Free Safety moves up just prior to snap and stacks behind Nose while the Strong Safety moves back to Middle 1/3.

The ILB's will align Right and Left regardless of formation strength. They will play Buc or Mac responsibilities according to strength of formation. The Mac Backer aligns weak 4 "0" on all formations and drops Weak Curl to Flat. If Big Wing to weakside, Mac will align on #2 on LOS and kick Will out to #1. If Twin H Crack, Mac will Sloop to coverage as Will rushes. Free Safety drops to WEak Hook on pass. Sam aligns opposite #2 strong and drops Curl to Flat. Buck aligns strong 4 "0" on all Two Back and Twin Sets. On Trips, Buck aligns opposite #3 strong on the LOS, and is Hook to Curl on pass, and Plug on run.

On change of strength motion, nobody runs with motion; we bump it across, but we must make appropriate drop and rush according to new strong side.

End to X	Run Loop with Nose.
Nose	Blitz 1 Gap to "X" Side.

Our Bear 3 Sam Defense will be played with four Linemen in game. We will play a Strong Side Zone with the OLB on the side of strength rushing. The OLB on the weak side drops Curl to Flat. We will always rush four men.

On Bear 3 Sam Defense our Mac Backer will align on right side on all Two Back Sets. On Twin formations, he will align on weak side in switch alignment. On Trips Set Mac will align on strong side in switch position. On all One Back Sets Buck aligns behind the Nose or opposite remaining Back. On Pass, Buck drops to Hook opposite of where Mac is aligned.

The Corners and Strong Safety will adjust to motion exactly as they would on any Cover 3 Defense. The Mac Backer should always end up on strong side of all Trip formations and will end up on weak side of all Twin formations. The Linebackers drop will depend on their final alignment.
